# Script Framework

- Use their first name
- Give a genuine compliment
- Tell them why you thought to reach out to them
- Short sentence on what makes MIG special and relevant to them
- Call to action/Ask questions to engage them in conversation
- It would be selfish not to share.

Voice message this script on the third day.

Hi (insert name) how are you?

(insert genuine compliment)

Example: I have been following you for awhile and I just have to tell you How much I adore you. I just love your vibe and personality

I have been thinking to myself, (how you would fit in so well with our community, or how much you may appreciate our premium products), so I knew I would regret if I didn't just reach out to you.

We are launching a movement that puts people and product integrity first and is positioned to transform and disrupt an entire industry. The products are 100% pure & natural and absolutely amazing!

(If inviting to look at **business** say this)

You likely know that we are now in a gig economy and more people are looking for a legit way to make money working from home with a company they can trust.

I want to invite you to be my guest and all you have to do is listen in so you can see for yourself.

(If inviting to look at **products** say)

The quality and effectiveness of these products is blowing my mind. What would you like to hear more about, how we are completely non toxic, how these formulations literally help your skin and body thrive and renew, or how we are changing the industry?

If inviting to **challenge** say

You are invited to be my guest in a free challenge my team is putting on (share 3 benefits they will get from the challenge)

I can't wait to share more if you are open, no big deal if not. I just knew I would be kicking myself if I didn't ask.
